Clinical Commissioning Group

We support people with physical disabilities by helping them with a range of services:

- Transport solutions such as blue badge, taxi card, freedom pass and dial-a-ride
- Information, advice and emotional support
- Support at medical appointments, DWP assessments and tribunals
- Monthly workshops on a range of different topics and weekly drop-ins
- Telephone support service for those who may fall into isolation
- Grant applications
- Assistive technology

We aim to improve people's confidence, independence and awareness of the services that are available to them. We offer free workshops, providing useful information to help people to learn new skills as well as an opportunity to socialise.

Monthly Workshops

In July our workshop was about dealing with debt and we invited a volunteer from the Chislehurst Debt Advice Service who came along to talk to our group. We learnt how to deal with different types of debt, how to avoid getting into debt with money saving tips and advice. We learnt about the work the service offers to clients and the support given to negotiate re-payment plans.

For our August workshop we continued with a similar theme, this time talking about budgeting, understanding our income and out goings and planning ahead in order to save money for the future. We also looked at money saving tips and ideas and some useful websites and apps.

Future workshop dates:

Monday 14th October – Crime Awareness
