September is Pain Awareness Month

Pain Awareness Month is an annual campaign dedicated to increasing understanding of pain, pain management, and the experiences of people living with pain. Throughout this campaign, different organisations and services aim to share reliable information, elevate lived experience, and advocate for better pain research, education, and care.

Park It!

Throughout Summer, the Long Term Health Conditions Team have arranged Park It! days for a group cycle, stroll, or sit down and socialise.

The Mencap Workshop in Norman Park, which has bikes, tricycles, and adapted tricycles, kindly provided free hire sessions for clients to have a go on bikes – including tandems!

Clients from both Long Term Health Conditions and Adult Carers biked or had a gentle stroll around the park, and socialised at the Trakside Café with free refreshments.

Craft Session: Introduction to Crochet

In August we held another of our online craft sessions.

This was an introduction to crochet, which had been suggested by a member of one of our support groups.

All materials were provided for free, and we had 10 people join for the online session which was a great turnout!

We will be organising more activities and events throughout the autumn, which are all FREE to join.

Go to Upcoming Events on page 5 to see what is coming soon and look out for our emails to sign-up, or contact the Long Term Health Conditions team for more details.
